

# High Horsepower Tuning for Mechanical Fuel Injection

## Index -- Tables & Illustrations page number

Table 3-4.1 Weather Data for Land Racing, Las Vegas, NV, USA from web app: 20 <a href="http://airdensityonline.com/trackForecast.php...">http://airdensityonline.com/trackForecast.php...</a>	20
Table 3-4.2 MFI Tuning by Time of Day	21
4-1.1 FP Size for 360 Sprint Car Example	24
4-1.2 FP Size for 410 Sprint Car Example	24
4-3.1 Example: MBP & Fuel Pump Size	25
Table 4.3.3 Fuel Injected Racing Engine Setup, (From Reference 5(b)), Different Fuel Pumps	26
Table 4-4.1 Nitro HP from BTU's	27
Table 6.6.1 Air to Fuel Ratios	34
Methanol fuel flow increase with RPM for typical 5 to 1 AFR necessary for an NA engine ...	34
Different fuel flow rates from different MBP jet sizes to maintain the same meth'l AFR ...	35
Table 6-8.1a Nozzle jet size chart showing effect of altitude on MBP size needs for a sb ...	36
Table 6-8.2a Nozzle jet size chart showing effect of altitude on nozzle & MBP size needs ...	36
Table 6-8.3a Nozzle jet size chart showing effect of altitude on nozzle & MBP size needs ...	37
Table 6-8.41 Nozzle jet size chart for 526 cubic inch fuel injected V-8 on racing gasoline ...	38
Math from pounds per hour (PPH):	39
Example from pounds per hour:	39
Math from gallons per minute (GPM):	39
Example from gallons per minute (GPM):	39
Illustration showing torque peak with fuel demand dropping off at higher RPM	39
Tuning RPM window	39
8-3.1a Fuel flow vs. fuel demand problem	44
8-3.2a Fuel flow vs. fuel demand band aid w/o HS	44
8-3.3a Fuel flow vs. fuel demand problem at mid range	44
9-1a Fuel flow vs. fuel demand with HS	47
Table 10-6.1 Jetting for NA V-8 Racing Engines on methanol at High Air Density	52
Table 10-7.1 Jetting for NA V-8 Racing Engines on methanol at Low Air Density	53
10-8.1 One of 4 calculators in ProCalc, the AFR calc for a 540 cubic inch Big Block V-8 ...	54
Torque vs. RPM @ different AFR's	54
Brake specific fuel consumption calculation	59
13-6 Fuel Pump Pressure Limits	64
Hilborn throttle plate clearance	72
Hilborn fuel pump flow rating adjustment	73
Air density science	76
Table 15-2.4.1 Idle / Secondary BP Pressures	77
15-3.1 Idle leak down values for Hilborn fuel injection	78
15-5.8.1(b) Torque converter torque multiplication & gear ratios	83
Table 15-8.5.2(c) Nozzle Fuel Velocity Analysis	91
Table 16-2.2.1 Jetting Adjustments for a fuel inj. 305 Sprint Car racing engine (ProCalc)	106
Table 16-2.5.1 Fuel Pressure Drop From Jetting for High Altitude in 305 Methanol Engine	108
Table 16-2.5.1(a) Steady Fuel Pressure From Revised Jetting for High Altitude in 305 ...	108
Table 16-2.5.2 Fuel Pressure Rise From Jetting for Low Altitude in 305 Methanol Engine	108
Table 16-2.5.2(a) Steady Fuel Pressure From Revised Jetting for Low Altitude in 305 ...	108
Appendix 1 FI Engine Specs: 360 ci Methanol V-8	112
Appendix 1-a FI Engine Specs: 410 ci Methanol V-8	114
Appendix 1-b FI Engine Specs: 360 ci Methanol V-8 (ASCS)	115
Appendix 1-c FI Engine Specs: 468 ci Nostalgia Nitro V-8	116
Appendix 1-d FI Engine Specs: 409 ci Methanol V-8	117
Appendix 1-e FI Engine Specs: 360 ci Methanol V-8	118

Appendix 1-f FI Engine Specs: 421 ci Methanol V-8 119  
Appendix 2 Hilborn Nozzle Size Table & Conversion 120  
Appendix 2-a Nozzle & Jet Size 121  
Appendix 3 Convert Up & Down Nozzles from Single Nozzle Setups 122  
Appendix 5 Air Density Index Conversion to Density Altitude Examples 126  
Appendix 6 Temperature, Humidity, Barometer, & Elevation Change Effects 127  
Appendix 7 ProCalc web application AFR jetting calc illustration & CSV data file 131  
Appendix 9 Fuel Inject. Info: Flathead; 360 Drag vs Sprint 137  
Appendix 10 FI Info: E85 Setups from ProCalc 138  
Appendix 11 FI Info: Gasoline Street Combo 140  
Appendix 11-9 MFI Gasoline Jetting Combos with High Speed 143  
Appendix 12 Air to Fuel Ratio Calculation 144  
Appendix 14 Setup Components (before starting) 'Checklist' 146  
Appendix 14 Setup Running Tests 'Checklist' 146  
Appendix 14 Setup Running Tests 'Checklist' w/o High Speed Bypass 147  
Appendix 14 Setup Running Tests 'Checklist' with High Speed Bypass for Flatlining 148  
Appendix 15 Tuning 'Checklist' 149  
Table A16: Enderle K Valve Return Circuits: Pump Relief, MBP, Idle 150
